

SCOTLAND BOARD OF EDUCATION
Board Policy

Instruction

Posting of Student Work/Photographs

The District recognizes that there are significant risks, as well as significant advantages, involved with allowing students to be identified on the Internet. Therefore, students should not be easily identifiable from materials they might publish on the Internet. No directory information should be posted on the Web for students whose parents have indicated, in writing, that such information not be released.

The purposes of these guidelines are to:

1. Inform school staff of the possible dangers of allowing students to publish identifying information on the Internet.
2. Recognize that there are potential advantages of allowing students to publish identifying information on the Internet.
3. Provide to schools a recommended set of guidelines governing how student identifying information should be allowed in publishing on the Internet.

Guidelines:

- Only first names be used in published student work.
- Pictures that are a part of student publishing should not include identifying information.
- Under no circumstances should a student's home address or phone number be included.
- If replies to published student work are appropriate, the sponsoring teacher's address should be the e-mail address displayed, not the student's.
- In special circumstances with parent-signed release, identifying information can be added.
- Directory information will not be posted on the Web.

The Superintendent or his/her designee shall ensure that website content protects the privacy rights of students, parents/guardians, Board members and other individuals.

No personal information about students or their parents/guardians, including phone numbers, home addresses or e-mail addresses shall be published on a District or school web page. Student directory information shall not be published if parents/guardians have requested that it be withheld.

Photographs of students shall be used only with permission from the student's parents/guardians.
